CIS 40 - Assignment 2

In this assignment you work with IDLE, the Python development environment, to write a program, test it, and debug it. This experience is to prepare you for the next assignments, where you will use IDLE to write a Python script to solve a homework problem.

There are 2 steps to the assignment:

1. (8pts) Write a Python script to print out several lines of text as follows:

> line 1:   CIS 40 - Assignment 2
>
> line 2:   <your full name>
>
> line 3:   One of my favorite songs is <your favorite song title>
>
> lines 4 - 7+: <at least 4 lines of lyrics of your favorite song, indented by 5 spaces>
> If the lyrics need more than 4 lines to reach a good stopping point, add a few more lines.

2. (7pts) Run your script, debug it if needed, then show me both the script and the program output.

Here is an example of the script output:

```

CIS 40 - Assignment 2
Clare Nguyen
One of my favorite songs is Imagine
     You may say I'm a dreamer
     But I'm not the only one
     I hope someday you'll join us
     And the world will live as one
